Recommendation	Comment
<p><u>Vision Zero Briefing</u></p> <ol style="list-style-type: none"> 1. That the Future Oxfordshire Partnership request that Oxfordshire County Council provide a cost estimate of the implementation of the Vision Zero targets within the Local Transport and Connectivity Plan. 2. That in light of Vision Zero, the Future Oxfordshire Partnership request that Oxfordshire County Council place a higher priority on responding to planning applications to highlight where highways infrastructure from a development could be improved to improve the safety of vulnerable road users. 3. That the Future Oxfordshire Partnership request that Oxfordshire County Council work with districts to coordinate the acceleration of the Mobility Hubs, Last Mile Delivery and Road to Rail workstreams with the objective of further reducing HGV traffic and associated risks to people though built up areas. 4. That the Future Oxfordshire Partnership request that the district councils be encouraged to consider and submit 	

additional requests to Oxfordshire County Council for the expansion of 20 mph zones within settlements, (potentially adopting the approach of the Welsh Government if legally permissible).

5. That the Future Oxfordshire Partnership request that the district councils consider the specific adoption of Vision Zero and Construction Logistics and Community Safety, (CLOCS) standards generally and specifically within their Local Plans.
6. That the Future Oxfordshire Partnership request that the district councils consider cooperating around the development of design guides which would incorporate Vision Zero and Construction Logistics and Community Safety, (CLOCS) principles for strategic developments to design out road danger and improve connectivity of places (e.g. layout of radii, type of kerbstones, guidance on grade separated crossings, underpasses etc).
7. That the Future Oxfordshire Partnership request that the district councils consider Vision Zero, Construction Logistics and Community Safety (CLOCS), direct vision standards, and Fleet Operator Recognition Scheme (FORS) principles in their approaches to the procurement of fleet or commissioned HGV vehicles.
8. That the Future Oxfordshire Partnership request that the district councils proactively encourage developers of major sites within local areas to collaborate with one another on Construction Management Plans. It is noted that such collaboration, when it has taken place, has worked well and led to benefits for all parties.
9. That the Future Oxfordshire Partnership request that in the context of Vision Zero, Thames Valley Police be written to and formally encouraged to accept evidence from vulnerable road users to inform its own highways safety enforcement.

<p><u>Future Oxfordshire Partnership Work Programme</u></p> <p>10. That in considering and agreeing its future work programme the Future Oxfordshire Partnership must be fully cognizant of the additional costs to councils in terms of resources and officer time and only proceed with workstreams where it can be clearly demonstrated through project plans that there would be added value to council taxpayers in taking collaboration on the issues through the Future Oxfordshire Partnership structure without the risk of repetition or duplication. It is suggested that this might require cost benefit analysis.</p>	
<p><u>Oxfordshire Visitor Economy Vision and Destination Management Plan</u></p> <p>11. That the Future Oxfordshire Partnership be recommended to endorse the proposed future governance arrangements for Destination Management Plan, (DMP) activity within the Future Oxfordshire Partnership.</p> <p>12. That it agrees that the delivery of the DMP should be a process that includes and recognises the important insight of the districts councils on their own local tourist economy in a 'bottom up' process.</p> <p>13. That the Future Oxfordshire Partnership request that OxLEP in developing the funding strategy for the DMP include consideration and exploration of a tourist tax.</p>	
<p><u>Community Employment Plans Evidence Paper 2023</u></p> <p>14. The members of the Panel present supported the report's recommendation that the Future Oxfordshire Partnership endorse the Community Employment Plan Evidence Paper 2023, and that Local Planning Authorities support CEP policies within Local Plans which are being updated.</p>
