**Updates from the report:** The planning officer corrected a small typographical error in paragraph 6.16 of the planning officer's report. This should read: 'The council's Housing Needs Assessment indicates that half of the dwellings on any housing site should be two bedrooms or less'.

Frank Dumbleton, from Chilton Parish Council, spoke objecting to the application. His concerns included the impact of the proposed development on the sewage and drainage systems, particularly as there are existing problems with sewers overflowing.

Peter Oliver, a local resident, spoke objecting to the application. His concerns included the size and scale of the proposed development, the impact on the area, given that it is classed as an area of outstanding natural beauty, and whether the proposed development is within planning guidelines and policies.

Simon Handy, the applicant's agent, spoke in favour of the application. His speech referred to the sustainability and unobtrusiveness of the proposed development, the close proximity to amenities, the S106 package, enhancement of the area, the noise assessment and drainage reports not showing potential problems, and that his client will accept a Grampian condition relating to sewerage and drainage.

Councillor Margaret Turner, one of the ward councillors, spoke objecting to the application. The points she raised included the impact of the proposed development on the drainage and sewerage systems, the unpredictability of noise from nearby slip roads, the pressure on local schools, the wording of the planning conditions and the lack of public open space provided.

The committee considered this application, with advice from officers where appropriate; the discussion included the effect of the proposed development on neighbours, potential noise levels, the impact on drainage and sewerage systems and air quality and the increased pressure on local schools.
