

11/01991/FUL App 4

**Kennington Parish Council**  
**Oxfordshire**

**11/01991/FUL**

**6 Liddiard Close, Kennington**

**Proposed side and rear extensions**

The Parish Council has considered the application for these extensions. The members of the Parish Council strongly object to this application.

- Liddiard Close has a distinctive character and was designed as a Close with low single storey dwellings. Since it was built in the 1960s, any additional accommodation needed by the residents has been provided at ground floor level. This application would create a precedent which would mean any other similar application would be difficult to resist.
- The large side extension would dominate the neighbouring properties at No. 8 and be un-neighbourly due to the slope in the land.
- The proposal is out of character with the scale of the bungalows in the Close.
- There is concern that the remodelling and increase in the height of the roof to include velux windows has the potential to create living space in the roof which would be detrimental to the street scene.

The members of Parish Council are aware of an objection from the neighbouring property in Liddiard Close and they hope that this application will be considered by the Development Control Committee taking account of the concerns expressed.
