FAX AND POST

Dear Sir

re: **Construction of new multi-purpose school hall to replace existing facilities and associated external works, forming new main entrance to school (re-submission)**
Our Lady's Convent, 3 Oxford Road, Abingdon

Thank you for the drawings and details of the above project received on 30 January which was discussed at the Architects Panel meeting on 1 February and on which you have requested design comments.

This application proposes changes to a building for which permission has already been granted – but not I am told to its height or footprint.

I consider the proposed “windcatcher” ventilation stacks a positive improvement. They add skyline interest to the hall and may further sustainability aspirations.

I can see no reason to justify withholding permission for brickwork in place of the previously proposed timber cladding.

Your papers and drawings are returned with the postal copy of this letter.

Yours faithfully

A handwritten signature in black ink, appearing to read 'Denis McCoy'.
