

<b>APPLICATION NO.</b>	<a href="#">P18/V0113/FUL</a>
<b>SITE</b>	Land to the East of Portway Cottages, Reading Road, East Hendred, Wantage, OX12 8JD
<b>PARISH</b>	East Hendred
<b>PROPOSAL</b>	Variation of Condition 8 of P15/V2560/FUL to remove the requirement for bus stops and associated works on the A417 and replace the requirement for a Toucan type pedestrian crossing to a Puffin type crossing as per technical safety audit from OCC Highways Authority.
<b>WARD MEMBER(S)</b>	Proposed residential development of 46 dwellings (as amended by drawings and information accompanying agent's emails of 8 April 2016, 25 May 2016, 12 and 22 August 2016).
<b>APPLICANT</b>	Michael Murray
<b>OFFICER</b>	Graham Flint Charlotte Brewerton

---

## **RECOMMENDATION**

**It is recommended that this application be granted planning permission with the following conditions attached and subject to a deed of variation.**

**Officers note that pre-commencement conditions have been discharged on the original application and that works at this site have been completed for the crossing. Therefore the following conditions will be required to be implemented as per those details submitted and approved in writing by application P17/V0251/DIS.**

- 1 : Time limit (full application).**
- 2 : Approved plans.**
- 3 : Roads and footpaths prior to occupation.**
- 4 : Construction traffic management plan.**
- 5 : Hours of work.**
- 6 : Protection of archaeological features.**
- 7 : Archaeological watching brief.**
- 8 : Access.**
- 9 : Off site highways works.**
- 10 : Car parking area.**
- 11 : Bicycle parking.**
- 12 : Noise.**
- 13 : Landscaping scheme (implementation).**
- 14 : Tree protection.**
- 15 : Maintenance of open space/play areas.**

- 16 : Materials (samples).
- 17 : Sustainable drainage scheme.
- 18 : Boundary details in accordance with plan.
- 19 : Slab levels (dwellings).
- 20 : No windows or rooflights (dwelling).
- 21 : Obscured glazing (opening).

## 1.0 INTRODUCTION AND PROPOSAL

- 1.1 The application comes to the committee because it is a major application and the parish council object.
- 1.2 The site, which lies within the parish of East Hendred, is currently under construction for 46 dwellings following planning permission P15/V2560/FUL. All pre-commencement conditions have been discharged (P17/V0251/DIS). The site lies within the Lowland Vale landscape designation, with the North Wessex Downs Area of Outstanding boundary marked by the southern edge of the A417, opposite the site. A site location plan can be seen below:

- 1.3 This current application seeks to vary condition 8 of planning permission P15/V2560/FUL for the development of 46 dwellings on land to the East of Portway Cottages, Reading Road, East Hendred.
- 1.4 Condition 8 of application P15/V2560/FUL sought off site highways works to be submitted to and approved in writing by the Local Planning Authority. The original permitted scheme included bus stops with associated infrastructure and a Toucan type crossing with a cycle/footway along the southern side of the A417. Oxfordshire County Council, as Highways Authority, requested the crossing type and requested that the details be secured by condition.
- 1.5 Details of the proposed footway were submitted by the applicant during the application process and showed a shared footway and cycleway on the southern side of the road. However when the technical drawings for these works were submitted to Oxfordshire County Council (OCC) and OCC considered the Road Safety Audit Stage 1/2 dated 18 March 2017 OCC

concluded that on safety grounds a Toucan type crossing (designed for both cyclists and pedestrians) was not appropriate in this location. In reaching this conclusion OCC considered the fact that due to the boundary wall of Mather House abutting the approved pavement. The maximum available highway land is 2m wide and that there would be safety concerns if pedestrian and cyclists were to use this as a shared surface. Consequently a pedestrian footway and a Puffin crossing (designed for pedestrians only) would be the safer option

- 1.6 A similar application (P17/V2002/FUL) to vary Condition 8 of planning application P15/V2560/FUL was considered and refused at Planning Committee on 13 November 2017 where committee considered that the provision of a 2 metre wide footway would create a highway issue. The applicant withdrew this application prior to determination and the consideration of the 2m wide footpath does not form part of the current application as this footpath has already been approved at this width under the original planning permission P15/V2560/FUL. There is to be no change to this pathway as approved only that it will now no longer be a shared footway/cycleway but rather for use by pedestrians only, thereby improving the situation and safety of the pathway for users. Cyclists will have to dismount and walk along this stretch. This requirement has come from OCC Highways Authority and their Safety Audit Team.
- 1.7 The change from a Toucan crossing to a Puffin crossing is included in the current application although a crossing has already been approved in this location under P15/V2560/FUL and there are no changes proposed to the crossing location. Offsite highway works have already been completed for a crossing in this location in accordance with the S.278 agreement between OCC and the developer in December 2017. A copy of the approved S278 is **attached** at Appendix 2. These works connect the Pye 3 site to White Road and include realignment of the road and the construction of the 2m wide footway on the southern side of the A417 and an upgrade to the pavement at the top of White Road which allows pedestrians to cross safely and onto the signalised crossing leading to Pye sites 1 and 2. A plan which shows these works in detail is **attached** at Appendix 1.
- 1.8 Given that there are no changes to the existing planning permission for this crossing planning permission is not required to seek the changes being sought from downgrading its type. While the agent has included the crossing details in the description of the application the details concerned with the crossing have already been approved via the submission of details to OCC Road Safety Team and a statement from OCC is **attached** for information at Appendix 3. The permitted crossing became usable as of 15 June 2018 with the lights being in operation and the speed limit of this road downgraded to 30mph. The changes to this crossing involve the type of switches that are to be placed upon the signalised crossing poles, the signage and markings on the road and these details can be approved as part of the offsite highways team safety audit. The details only need to be submitted to the Planning Department to be signed off as per condition 8 of the permitted scheme in consultation with the Highways Team. In addition, these details form part of the S278 Agreement.

1.9 The current application like the previous withdrawn application, seeks the removal of the bus stops along the A417. These bus stops are a legal requirement within the S106 entered into as part of the original permission and officers must consider the impact of their loss in this location.

1.10 The S106 sets out the obligations of Pye Homes in the build out of this site. Should this application be considered acceptable then the Developer will be required to enter into a deed of variation with the Council to ensure that the existing obligations continue subject to any variation resulting from an approval of this current application

2.0 **SUMMARY OF CONSULTATIONS & REPRESENTATIONS**

2.1 A summary of the responses received is set out below. Comments made can be viewed in full online at [www.whitehorsedc.gov.uk](http://www.whitehorsedc.gov.uk)

<p><b>East Hendred Parish Council</b></p>	<p><b>Object</b></p> <ul style="list-style-type: none"> <li>• Removal of bus stops creates a longer, unsafe passage for cyclists and pedestrians</li> <li>• All village facilities are to the south of A417 so will be heavily used and safe passage is paramount</li> <li>• Full safety Audit should be carried out that is more extensive than that proposed by RSA.</li> <li>• Small differences to scheme but net affect has serious implications for bus passengers, cyclists and pedestrians.</li> </ul>
<p><b>Oxfordshire County Council Single Response</b></p>	<p><b>No objection</b> subject to conditions.</p> <ul style="list-style-type: none"> <li>• In the wider context the location of bus stops are better served by being located elsewhere and associated with another development, but in walking distance to this site.</li> <li>• Space does not safely permit for a Toucan type pedestrian crossing and the main issue is that safe passage is facilitated across the A417 and this can be done through a Puffin type crossing.</li> </ul>

	<p>Additional comments received after having read EHPC comments and PBA report:</p> <p><b>No Objections</b></p> <ul style="list-style-type: none"> <li>• The main point of concern is the streetscape interaction between the s278 works for the crossing and the location of the bus stop.</li> <li>• Through the s278 process Road Safety Auditing (RSA) is undertaken and appropriate design modifications made, within the general principles, as established through the planning process.</li> </ul>
<p><b>SGN Plant Protection Team</b></p>	<p><b>No strong views.</b></p> <ul style="list-style-type: none"> <li>• gas pipes are not within the digging zone of the crossing and off site highways works.</li> </ul>
<p><b>Neighbours</b></p>	<p><b>Object (2)</b></p> <ul style="list-style-type: none"> <li>• Support for cycling</li> <li>• change in path will aid congestion by increasing car use</li> <li>• increase in pollution and slowing of traffic on A417</li> <li>• non-compliance with previous refusal</li> <li>• outstanding discharge of conditions</li> <li>• bus stops are necessary in this location</li> <li>• dangerous crossing</li> <li>• minimum site lines for 30mph not 40mph as signage along road suggests.</li> </ul>

3.0 **RELEVANT PLANNING HISTORY**

3.1 P17/V0251/DIS - Approved (06/09/2017)

Discharge of Conditions: 3 - levels, 4 - external construction materials, 5 - boundaries, 6 - landscaping, 7 - arboricultural method statement, 8 - off-site highway works, 9 - Travel Plan Statement and Information Pack, 10 - Construction Traffic Management Plan, 11 - drainage scheme, 12 - drainage strategy, 13 - bicycle parking and bin storage, 14 - Archaeological Written Scheme of Investigation, 15 - Archaeological mitigation, 16 - traffic noise mitigation, 17 - windows to Plot 17 and 18 - open space and children's play

area on planning permission P15/V2560/FUL - Proposed residential development of 46 dwellings

P17/V0324/NM - Approved (08/03/2017)

Non material amendment to application ref. P15/V2560/FUL(Proposed residential development of 46 dwellings) to omit carports provided for plots 2-6 and substituting carports with garages to plots 23-26, 31-34 and 35-42 (As amended by Drawing Nos: 2836.200 Rev L, .212 Rev D, .213 Rev D and .220 Rev F to increase the size of new garages)

P15/V2560/FUL - Approved (15/11/2016)

Proposed residential development of 46 dwellings (As amended by drawings and information accompanying agent's emails of 8 April 2016, 25 May 2016, 12 and 22 August 2016)

P16/V0235/O - Refused (30/09/2016)

Outline planning application for the erection of 75 dwellings (10 of which will be specialist accommodation for older people), communal hub for older persons accommodation, retention of the existing Bed and Breakfast and associated open space, with all matters reserved (as clarified by amended application forms accompanying agent's letter of 6 April 2016 that confirms this application seeks outline planning permission with all matters reserved and as further clarified by information accompanying agent's letter of 12 May 2016 and amended by Drawings accompanying agent's letter of 7 July 2016)

P15/V2328/O - Refused (21/01/2016) - Appeal allowed (18/04/2017)

Outline planning application for the erection of 75 dwellings (10 of which will be specialist accommodation for older people), communal hub for older person's accommodation, retention of the existing Bed and Breakfast and associated open space, with all matters reserved save for that of access.

#### 4.0 **ENVIRONMENTAL IMPACT ASSESSMENT**

4.1 Not required as the development is not within a sensitive location, fewer than 150 dwellings and less than 5Ha.

#### 5.0 **MAIN ISSUES**

5.1 The main considerations in the determination of this application are:

- whether removal of the bus stops would adversely affect the highway network or inconvenience future occupants of the approved application site known as Pye 3, for 46 dwellings;

#### 5.2 **Highway safety**

On submission of the Section 278 agreement to Oxfordshire County Council Highways Team it became apparent from the Road Safety Audit that the inclusion of bus stops along the A417 would cause safety concerns and conflict with the proposed toucan type crossing from Pye 3 development to the village of East Hendred.

- 5.3 In discussion with OCC the applicant (Pye Homes) has sought the removal of the bus stops within the immediate vicinity of Pye site Phase 3, an obligation that was required from a signed S106.
- 5.4 It is understood from having spoken with OCC that the bus companies travelling along the A417 at present have diverted their existing bus routes from the A417 (when coming from Didcot to Wantage) and into the village itself. This is a temporary measure whilst the ongoing developments at Harwell and Milton take place and will be remedied within 12 months' time. Currently, there are no bus services that stop along A417 in close proximity to the Pye developments.
- 5.5 The committee report of application P15/V2560/FUL noted (at para 6.64) that *'The A417 is also an important public transport corridor, linking Wantage to Harwell. The Highways Authority have requested a proportionate contribution to the improvement of bus services along the A417 and this is again considered necessary as part of the mitigation of this scheme. Furthermore, bus stops on the A417 serving the site will be needed'*.
- 5.6 The situation has not changed, Officers agree that with the additional residential sites currently being built along A417 additional public transport infrastructure is required.
- 5.7 The Parish Council have submitted their comments alongside having a consultant consider their issues. Peter Brett Associates (PBA) have stated that a point of concern is *'Now that there have been changes to the (highway) scheme, there will be different operational requirements on the highway, and the safety of the proposals should now be considered afresh.'*
- 5.8 At the present time there are existing bus stops along White Road and further within the village itself. In the medium and longer term, it is expected that some buses will revert to travelling straight along A417. Once it is known when this will happen, the County Council will install a pair of bus stops on A417, to the west of the White Road junction. These will be funded using developer contributions held from the adjacent 'Pye 2' site. In addition to these monies there is also funding from the Greensands development via an obligation sought through a signed S106. It is intended that as the Greensands site comes forward, contributions from that site will be used to provide bus stops, further east along A417. Therefore, two different sets of bus stops will be provided for along this stretch of road to provide for all future residents of the Pye development sites 1, 2 and 3 and the Greensands development as it comes forward.
- 5.9 The Featherbed Lane Improvement Scheme (P15/V0774/LDP) will provide a new roundabout junction on A417 and the bus stops would be located to the west of this junction to ensure that they are within walking distance of all new developments.
- 5.10 OCC responded on the previous application (P17/V2002/FUL) that whilst the buses are running on a temporary route, during the build out of these sites and

the reconfiguration of the road, the bus stops cannot be implemented safely within the immediate vicinity of this development. Whilst it is noted that additional bus services will be needed along this stretch of road, the bus infrastructure sought as part of the Pye 3 development would be an overprovision and cannot be implemented safely or without causing conflict with other improvements along this road.

- 5.11 The previously refused scheme (P17/V2002/FUL) for the removal of bus stops received 2 letters of objection from local bus providers. This application has had no comments made from either party. The bus providers, in discussion with OCC, understand that bus stops and local bus provision will be placed along this stretch of the A417 as per the strategic approach to development and no comments have been made to this effect. All providers who previously made representations on P17/V2002/FUL were consulted.
- 5.12 Paul Yoward, Senior Highways Officer at OCC has considered the amended plans including the details of the crossing type, the removal of the bus stops and the PBA report submitted on behalf of East Hendred Parish Council. He concludes that there are no highways objections to the scheme now proposed for offsite highways works.
- 5.13 The Road Safety Audit has considered the crossing type, its location and the location of bus stops in context along the A417 and safety audits levels 1, 2 and 3 fully consider the pedestrian route to the bus stops outside the Pye 1 and 2 developments is accessible in this location. Therefore, the context of the road and the amendments to it have been fully considered.
- 5.14 Planning Officers have no evidence that the change in crossing type and the removal of the bus stops would pose a safety risk to pedestrians of the Pye 3 development site. Nor is there evidence that pedestrians would use the north side of A417 rather than walk the safer route using two crossings to access the Pye 3 development. This is an assumed route.
- 5.15 The permitted crossing provides for safe access for pedestrians of the Pye 3 development to the village of East Hendred and onto bus stop provision outside of the adjacent Pye 1 and 2 developments.
- 5.16 Officers therefore consider that the removal of the bus stops from the Pye 3 development obligation is justified. In a wider consideration of the strategic network improvements taking into consideration the development in the area comprehensively; there will be suitable bus stop provision to serve all development sites following S106 obligations from the Greensands and Pye 2 developments. Safe and convenient bus stop infrastructure will therefore be provided, in accordance with policy.
- 5.17 **Other Issues**  
In discussions with the Parish Council they have queried why the site boundary wall abutting Mather House with the pathway along A417 cannot be cut through

and a shared surface route be provided through this site, taking it away from the edge of the A417.

- 5.18 The Council understand that Mather House is under separate ownership and therefore cannot request that this land is used to form an alternative route from the Pye 3 development. An alternative route is not required because the amendment of the crossing to a Puffin crossing with all safety audits in place has ensured that users of this pathway and crossing do so in a safe manner in accordance with planning policy.

## 6.0 **CONCLUSION**

- 6.1 In conclusion Officers recommend that approval is granted for the variation of condition 8 of planning permission P15/V2560/FUL for the reasons outlined in the report above and that the condition can now read:

“A scheme for all off-site highway works, to include a timetable for their implementation, must be submitted to and agreed in writing by the local planning authority. The submitted scheme shall include the creation of a Puffin Type pedestrian crossing (and associated works), a shared footway/cycleway on the north side of the A417 and a linking 2m wide footway only along the south side of the A417 and improved pedestrian crossing facilities in the form of tactile paving’s and dropped kerbs on White Road. The works shall be undertaken in accordance with the approved drawings and the approved works shall be implemented in full before the occupation of any dwelling hereby approved.”

The following planning policies have been taken into account:

### **Vale of White Horse Local Plan 2031 Part 1 Policies:**

- CP01 - Presumption in Favour of Sustainable Development
- CP02 - Cooperation on Unmet Housing Need for Oxfordshire
- CP03 - Settlement Hierarchy
- CP04 - Meeting Our Housing Needs
- CP05 - Housing Supply Ring-Fence
- CP07 - Providing Supporting Infrastructure and Services
- CP15 - Spatial Strategy for South East Vale Sub-Area
- CP22 - Housing Mix
- CP23 - Housing Density
- CP24 - Affordable Housing
- CP33 - Promoting Sustainable Transport and Accessibility
- CP35 - Promoting Public Transport, Cycling and Walking
- CP36 - Electronic communications
- CP37 - Design and Local Distinctiveness
- CP38 - Design Strategies for Strategic and Major Development Sites
- CP39 - The Historic Environment
- CP42 - Flood Risk
- CP43 - Natural Resources
- CP44 - Landscape
- CP45 - Green Infrastructure
