Internal audit activity report quarter one 2013/14

Recommendation

That members note the content of the report

Purpose of Report

1. The purpose of this report is to summarise the outcomes of recent internal audit activity for the committee to consider. The committee is asked to review the report and the main issues arising, and seek assurance that action will be/has been taken where necessary.
2. The contact officer for this report is Adrianna Partridge, Audit Manager for South Oxfordshire District Council and Vale of White Horse District Council, telephone (SODC) 01491 823544 and (VWHDC) 01235 547615.

Strategic Objectives

3. Managing our business effectively.

Background

4. Internal audit is an independent assurance function that primarily provides an objective opinion on the degree to which the internal control environment supports and promotes the achievements of the Council's objectives. It assists the Council by evaluating the adequacy of governance, risk management, controls and use of resources through its planned audit work, and recommending improvements where necessary. After each audit assignment, internal audit has a duty to report to management its findings on the control environment and risk exposure, and recommend changes for improvements where applicable. Managers are responsible for considering audit reports and taking the appropriate action to address control weaknesses.

5. Assurance ratings given by internal audit indicate the following:

Full Assurance: There is a sound system of internal control designed to meet the system objectives and the controls are being consistently applied.

Satisfactory Assurance: There is basically a sound system of internal control although there are some minor weaknesses and/or there is evidence that the level of non-compliance may put some minor system objectives at risk.

Limited Assurance: There are some weaknesses in the adequacy of the internal control system which put the system objectives at risk and/or the level of non-compliance puts some of the system objectives at risk.

Nil Assurance: Control is weak leaving the system open to significant error or abuse and/or there is significant non-compliance with basic controls.

6. Each recommendation is given one of the following risk ratings:

High Risk: Fundamental control weakness for senior management action

Medium Risk: Other control weakness for local management action

Low Risk: Recommended best practice to improve overall control

2013/2014 Audit Reports

7. Since the last Audit and Governance Committee meeting, the following audits and follow up reviews have been completed:

8. Members of the committee are asked to seek assurance from the internal audit report and/or respective managers that the agreed actions have been or will be undertaken where necessary.
9. A copy of each report has been sent to the appropriate service manager, the relevant strategic director, the section 151 officer and the relevant member portfolio holder. In addition to the above arrangements, reports are now published on the council intranet and committee members are alerted by e-mail when reports are published.
10. Internal audit continues to carry out a six month follow up on all non-financial audits to establish the implementation status of agreed recommendations. All key financial system recommendations are followed up as part of the annual assurance cycle.

Systemic Control Weaknesses

11. **Appendix 1** of this report sets out weaknesses which have been identified within planned audits which internal audit consider to be systemic within the council. Every recommendation made by internal audit since April 2010 has been logged within a recommendation register according to an Institute of Internal Auditors control type definition, and a point system has been used - 1 point for a low risk recommendation, 2 points for a medium risk recommendation and 3 points for a high risk recommendation. The points have been totalled against each control type, and the top 10% control weaknesses which occur across a number of operational areas have been listed as a systemic control weakness. The table will be reviewed and updated by the audit manager, head of finance and the strategic director (section 151 officer) on an ongoing basis, and will be used to inform the annual audit plan and the scope of individual reviews

Financial Implications

12. There are no financial implications attached to this report.

Legal Implications

13. None.

Risks

14. Identification of risk is an integral part of all audits.
