Summary table of comments – Joint SCI

1. Section 1 of the draft SCI provides an introduction to the Statement of Community Involvement, and information on the councils' overall approach to community engagement and involvement in the planning process. Q1. Overall did you find that the information in this section was presented in a simple and easy to understand way?

ID: 174155654	Seems colleges have all the power around Oxford, if they want something built it gets done regardless.	This SCI sets out the statutory process for assessing planning applications and preparing plan making documents, which are then followed by the councils. Comments submitted about particular developments are carefully considered as part of the assessment process.	
ID: 174167724	Wording was clear and direct. Flow diagrams provided a concise summary.	Noted	
ID: 174167953	Fine words but most feel their voices are heard but ignored unless they coincide with the council's plans.	The councils carefully consider all comments submitted on planning policy documents and planning applications and take these into account alongside national and local policies when making decisions.	
ID: 174160763	Reads like a white paper. Lots of technical terms and formal language. Could be more diagrams and examples. Doesn't read as though involvement or community are welcome.	The SCI has been written in a way that aims to explain the consultation process in an easy to understand way, without over simplifying the process. A glossary is included to explain the technical terms. It uses several flow charts and diagrams to explain the process and supplement the text. We fully encourage community involvement in the planning process.

ID: 174201658	Information was fine - however, I am used to reading and assimilating content and objectives of large documents.	Noted	
ID: 174217905	Flowcharts in all sections very helpful.	Noted	
ID: 174229530	No comment.	Noted	
ID: 174357995	More about ticking boxes. Does not explain what consultation methods I can expect.	The methods for consultation on planning policy documents is set out on p22 and for planning applications on p28 of the SCI.	
ID: 174420959	Set out legislative position and made vague positive comments without saying anything useful.	Noted	
ID: 174573133	No one listens to the community view. House builders win out.	The councils carefully consider all comments submitted on planning policy documents and planning applications and take these into account alongside national and local policies when making decisions.	
ID: 174618685	It does the job.	Noted	
ID: 174852486	Too long	Noted. The document contains several flow charts and diagrams which do make it longer. It contains information that we feel people will find helpful in understanding who how and when we consult.	
ID: 175093121	Too much information for someone who hasn't been involved in planning.	Noted – the document does contain a lot of information. There is a balance between providing all the information that we need to so that people are informed, and trying to keep the document

		short. We have tried to get the balance right and do not want to omit information that may be useful.	
ID: 175102902	<p>Developers control where development goes. Local communities are distanced.</p> <p>Where does the SCI demonstrate the will/ power to change the approach to planning to address climate change? How is engagement demonstrated? The methods of engagement are proportionate and meaningful to whom?</p>	<p>This SCI sets out the statutory process for assessing planning applications and preparing plan making documents, which are then followed by the councils. The councils carefully consider all comments submitted on planning policy documents and planning applications and take these into account alongside national and local policies when making decisions.</p> <p>Climate change is an important consideration when developing planning policy, and will be addressed through the joint local plan.</p> <p>A consultation statement is prepared after formal consultations that sets out how engagement was undertaken, what the responses were and how the responses have been considered.</p>	
ID: 175210775	<p>Language not as simple as suggested e.g., infrastructure can mean different things. If simple English no word should be more than two syllables.</p> <p>Central Government sets the scene of what you can do and VWHDC follows the rules. Not made very clear leaving the reader believing their voice counts, which I do not believe is correct.</p>	<p>Noted. We will add infrastructure to the glossary. Under the CIL section the SCI gives examples of infrastructure eg transport schemes, leisure facilities etc to help explain what it means.</p> <p>The councils make decisions in line with national and local policy.</p>	Add Infrastructure to glossary
ID: 175314624	42 pages too in depth but text and diagrams were clear.	Noted – the document does contain a lot of information. There is a balance between providing all the information that we need to so that people are informed, and trying to keep the document

		short. We have tried to get the balance right and do not want to omit information that may be useful.	
ID: 175228434	No indication of the process when 'consultation' shows that the proposal is not in agreement with the community's desires.	The SCI sets out consultation processes that we carry out in line with Regulations. The councils have to consider a number of factors in progressing with policy documents and determining applications. Consultation is a one of the key factors: we read all responses to consultations and give them careful consideration.	
ID: 175340758	Welcome the opportunity to comment on the draft Statement of Community Involvement (SCI) from the perspective of citizens with disabilities.	Noted	
ID: 175722188	Visually clear and jargon free.	Noted	
ID: 175817477	Page 3, Paragraph 1.6 "TThe Statement of Community Involvement will be adopted by both councils..." (typo)	Noted	Correct typo on page 3.
ID: 176389843	Council is unable to deliver on the aims set out in the SCI because of government pressure for development.	Government has set out a clear intention within their policies, including the National Planning Policy Framework to 'significantly boost the supply of homes'. This is taken forward by the Councils at the local level through our adopted plans.	
ID: 176530958	Simple and straightforward but rather long - only for those dedicated enough to want to contribute.	Noted.	
ID: 176744593	Too long, needs to be more reader friendly. Ideals are plausible but track record on customer	The SCI is a statutory document which sets out how we engage with local communities (local residents, businesses, organisations and statutory consultees). We have, as concisely as possible,

ID: 176747450	Long winded and unspecific on how you engage with members of the public e.g. timescales and where, if people were looking for information, they could go on your website. Was helpful to say where people could sign up to receive emails.	The methods for consultation on planning policy documents is set out on p22 and for planning applications on p28 of the SCI. The SCI does include links to the councils' websites, we will review if there are other places where links can usefully be inserted.	Check all opportunities for linking to the councils' websites are included

ID: 176920974	Clear and easy to understand. Could include explicit 'measures of success' allowing the council to demonstrate that it has met its vision. Could demonstrate that effective and fair engagement and involvement on the criteria (particularly sections 1.8, 1.10, 1.11) had been met - building public trust in the planning process.	There are no set targets for public engagement, however the councils are continually trying to improve its methods to reach more people.	
ID: 176916499	Unfortunate that many of the aims cannot be carried out in practice due to policy pressure for housing in Didcot.	Government has set out a clear intention within their policies, including the National Planning Policy Framework to 'significantly boost the supply of

2. Section 2 of the draft SCI provides information on how you can get involved with and influence the councils as we prepare the Local Plan and other planning policy documents including Neighbourhood Plans. Q2. Overall did you find that the information in this section was presented in a simple and easy to understand way?

	The definition of Development Plan in the glossary is incorrect. It is not just a document listing plans, it is the policies and content in all the plan documents.		
ID: 174202530	Focus reads from a council perspective. ID: 174357995	More should be done on explaining how consultation will actually be done	We have tried to provide enough information to keep people informed about we will consult on planning policy and planning applications in a concise way so that the document is not too long and is easy to read. The methods for consultation on planning policy documents is set out on p22 and for planning applications on p28 of the SCI.

ID: 175102902	<p>Section includes plenty of opportunities for consultation but how 'top down'/'bottom up' is it? Too much bureaucracy in neighbourhood plan preparation. Not possible to impose policy at parish level that hasn't been adopted by the Local Plan. Hands are tied behind our backs – local people might want to progress more quickly than those at local or national level.</p> <p>Who is involved in the 'Pre-production stage' of 'evidence gathering and early engagement'?</p> <p>Changes to planning systems demonstrate local community powerlessness. Perhaps engagement in the planning process should be measured, not a series of aspirations about technical communication.</p>	<p>The SCI cannot set out new policy or make changes to national policy.</p> <p>The planning policy team are involved in the pre-production stage and evidence gathering when preparing a local plan or SPD. For neighbourhood plans, the neighbourhood group is responsible for this, with support from the planning policy team.</p> <p>There are no set targets for public engagement, however we are continually trying to improve our methods to reach more people.</p>

3. Section 3 of the draft SCI provides information on how to become involved with different aspects of development management including planning applications, planning appeals, Section 106 (planning obligations), pre-application advice and planning enforcement. Q3. Overall did you find that the information in this section was presented in a simple and easy to understand way?

ID: 174158393	VoWH Council has failed to inform nearby properties about development applications. By luck only have I discovered nearby applications, many after consent had been given. I do not believe this will change anything. I distrust the Council's intentions to permit local people to have a say.	The table below Paragraph 3.5 sets out the methods by which we publicise planning applications. Diagram 7 sets out the minimum neighbourhood notification for all applications. The SCI sets out the statutory process for assessing planning applications which is then followed by the councils.

ID: 176857965	<p>If the proposals in the recent White Paper go ahead, this section will be largely irrelevant.</p> <p>The 3-minute time-limit for public comments at Planning Committee meetings is very restrictive.</p> <p>Perception that the operation of the planning system is weighted in favour of developers, and against local residents/ other interested third parties. Through pre-application discussions, the developer has opportunities to persuade planning officers to see things the applicant's way.</p> <p>The SCI should do whatever it can to redress this perception of imbalance and unfairness. This could include:</p> <ul style="list-style-type: none"> - greater willingness of planning officers to engage with third parties - not just with the developer - before an application goes forward for decision - better opportunities for third parties to make their case at committee meetings. Include an opportunity for third parties to respond to points made to the committee by the applicant in their remarks. - possibly taking more items to committee, so that councillors get a better sense of how the system is actually working. 	<p>The SCI does not go into detail on the proposed changes to the planning system. The SCI will be reviewed and updated if there are significant changes to how we consult in the future.</p> <p>The councils' constitutions address matters of process regarding planning committees. This is not addressed by the SCI.</p> <p>The councils carefully consider all comments submitted on planning applications and take these into account alongside national and local policies when making decisions. We consider it appropriate that the pre-application advice given is disclosed when the application is formally submitted.</p> <p>The SCI sets out how we engage with local communities (local residents, businesses, organisations and statutory consultees). ID: 177039688	It is imperative that there is a robust system in place for encouraging communities, both organisations and individuals, to engage with, and participate in, consultations.	The SCI sets out how the councils will engage with the local community on planning documents and planning applications.	

5. Q5. Do you have any comments on the general format of our draft SCI? Is it clear and suitable for your needs?

The council has to consider a number of factors in determining applications. Consultation is one of the key factors: the council reads all responses to consultations and gives them careful consideration. In some cases details may be dealt with by a planning condition, or if the application is at an outline stage, the details will be dealt with by way of a reserved matters planning application.

	<p>Need to have greater transparency for those decisions made about unauthorised development and be wary of officer delegation for such cases. Should be a referral to the Planning Committee. If reported to Planning Committee, time limit of 3 minutes is too short.</p> <p>5. Planning officers should be limited in use of delegated decision-making powers for amendments when decisions would normally be addressed during the main planning assessment. This should apply even when single third-party objections remain (currently allowed) under the scheme of delegation.</p> <p>Local research work should take place during the Local Plan work programme, starting from first principles, often poorly evidenced</p> <p>7.
