

# Turning the Oxfordshire Strategic Vision for Long Term Sustainable Development into Action

**FUTURE  
OXFORDSHIRE  
PARTNERSHIP**

# Progress Update January 2023 – Ideas Mapping

Exploring additional opportunities to work collectively together to support delivery of the outcomes of the Oxfordshire Strategic Vision, both **now and into the future**, given that the ambitions of the Vision take us to 2050.

Focus is on areas where **joint-working across organisations and district boundaries adds value**, recognising that certain activity is more appropriately delivered at a district level, and other at scale.

## Complete

- One to one sessions with officers from the Executive Officer Group (EOG).
- One to one sessions with the Chief Executives Group.
- Groups sessions with the officers supporting the Environment Advisory Group (EAG) and the Housing Advisory Group (HAG).
- The HAG met to discuss the focus of the group moving forward.

## Ongoing

- A session with the officer group supporting the Infrastructure Advisory Group (IAG) is scheduled for January 2023.
- A session with officers supporting the new Planning Advisory Group is to be arranged.
- Three sessions with Scrutiny Panel members have been scheduled for early/mid February 2023.
- In discussion with the respective chairs re: design of sessions with the other advisory groups.
- Sessions with FOP members to be scheduled.

# Stakeholder Engagement Sessions – Examples

Explore and assess opportunities to improve standards within the PRS at a county wide scale, to address fuel poverty, living standards, and resident wellbeing.

Explore county wide incentives to increase the provision of affordable housing and social housing – to be based on evidenced need.

Sharing of best practice in areas aligned to the Vision e.g., retrofit of heritage properties – support learning and knowledge transfer.

Data capture to support in understanding the changing housing need across Oxfordshire.

Countywide programme focussed on adaptation to manage and mitigate against the impact of climate change.

Countywide incentives and policies to encourage green construction methods for housing developments which support progression to net zero.

Revised Energy Strategy and Local Area Energy Plan for Oxfordshire, to support the county in achieving its net zero ambitions.

Improved partnership approach to care and support commissioning across the county.
